

TITAN S3/S4

TITAN S3 / S4

Caractéristiques:

- High wattage vandal-resistant light fitting
- Wall-mounted version (S3) or recessed (S4)
- 1 mm thick zinc-coated steel body protected against corrosion
- 2 mm thick zinc-coated steel frame protected against corrosion
- Polyester powder coating
- Clear textured polycarbonate diffuser (fluorescence)
- Opal polycarbonate diffuser (LED)
- Tamperproof stainless steel screws

RAL7016

RAL9003
White colour on request

Options:
(please contact us)

Class II
Duroflam® diffuser
Opal polycarbonate diffuser
Separate circuit
Built-in microwave motion detection
Daylight sensor (preset to 70 lux)

EXISTING INSTALLATIONS:

Switch to LED!
see p. 202 - 203

LED module:

- 9 x 1.2 W LED module or 12 x 1.5 W LED module
- Mounted on aluminium heat dissipation plate
- Average colour temperature: 3800 K / IRC (Ra) > 80
- Constant LED power supply: 24 V DC (12 x LED) or 350 mA (9 x LED)
- Average service life 50000 hours at 25 °C ambient temperature
- Standby mode: flux reduced to 20% in case of non-detection of occupation

Easy-Sensor® detection:

- 5.8 GHz microwave detector
- 360° detection range
- Sensitivity adjustable from 20 to 100%
- Daylight sensor: adjustable from 5 to 2000 Lux
- Adjustable timer: 10 seconds to 20 minutes
- Memorisation of settings in case of power failure.
- Maximum load: 500 W (fluorescent and LED), 800 W (incandescent)
- Standby power: 0.9 W ± 10%
- Operating temperature range: - 20 °C to + 70 °C

Motion sensor operation may reduce the life time of fluorescent lamps.
Recommended operating time: 20 min (12 min minimum).

Dimmable fluorescence (EEI = A1):

Three types of controls are included in the same dimmable HF ballast:
DALI, DSI, or SWITCH-DIM (momentary push-button switch operated).
Corridor function included: see pages 21-22.

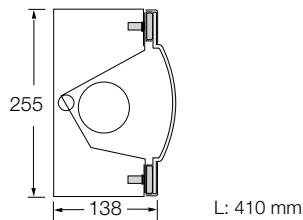

HF ballast (EEI = A2):

- Warm cathode HF ballast
- Non dimmable
- Power factor cos phi > 0.95
