German Design Award

Lang – designed by ÅF Lighting – has been nominated for the German Design Award 2019 in the Excellent Product Design category.

The German Design Awards identify and recognise unique design trends; honouring innovative products and their manufacturers and designers who have made pioneering contributions to the German and International design landscape.

Only contributions that have been nominated by the “Design Innovation Product Scouting” panel of the German Design Council or by its foundation members are allowed to compete for the German Design Award.

Thank you
