THINK DESIGN

About Us

Founded in 2013 by Mr. Sven Speissegger, NEKO set out with a clear vision: to deliver high-quality, efficient LED lighting solutions with an exceptional price-to-performance ratio.

Under Mr. Speissegger's leadership, NEKO has rapidly evolved into a thriving international lighting company, now serving customers in over 120 countries with innovative architectural solutions for both indoor and outdoor applications.

Over the past decade, NEKO has grown into a global team of more than 450 professionals, with its own production facility in Asia and dedicated Design, Sales, and Marketing departments in Europe.

Mr. Speissegger's commitment to innovation and quality continues to drive NEKO's success and industry leadership.

Lighting Design Service

PHASE 1

Site Assessments

- 1. On-site research
- 2. Gathering customer needs and intentions
- 3. Identifying potential risks to ensure a successful lighting design

PHASE 2

Lighting Concept Design

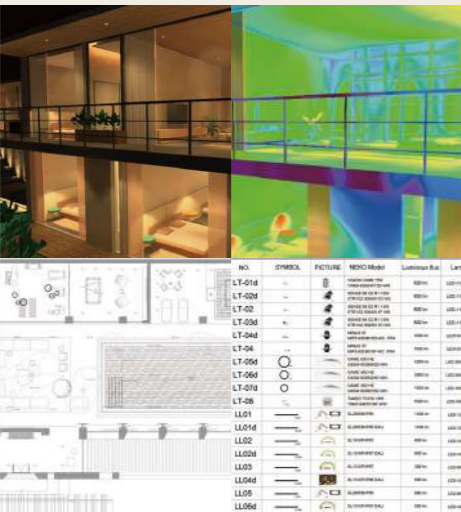

- 1. Development of a preliminary lighting concept
- 2. Selection plan for fixtures that align with the project's vision

PHASE 3

Detailed Lighting Design

- 1. Comprehensive lighting analysis
- 2. Lux calculations to ensure optimal illumination across all spaces

PHASE 4

Site Commissioning

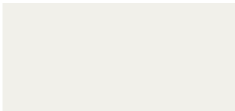

- On-site supervision of the final setup and light effects ensuring the lighting meets the desired standards.

SPACE 40 / 40 EVO

Linear System

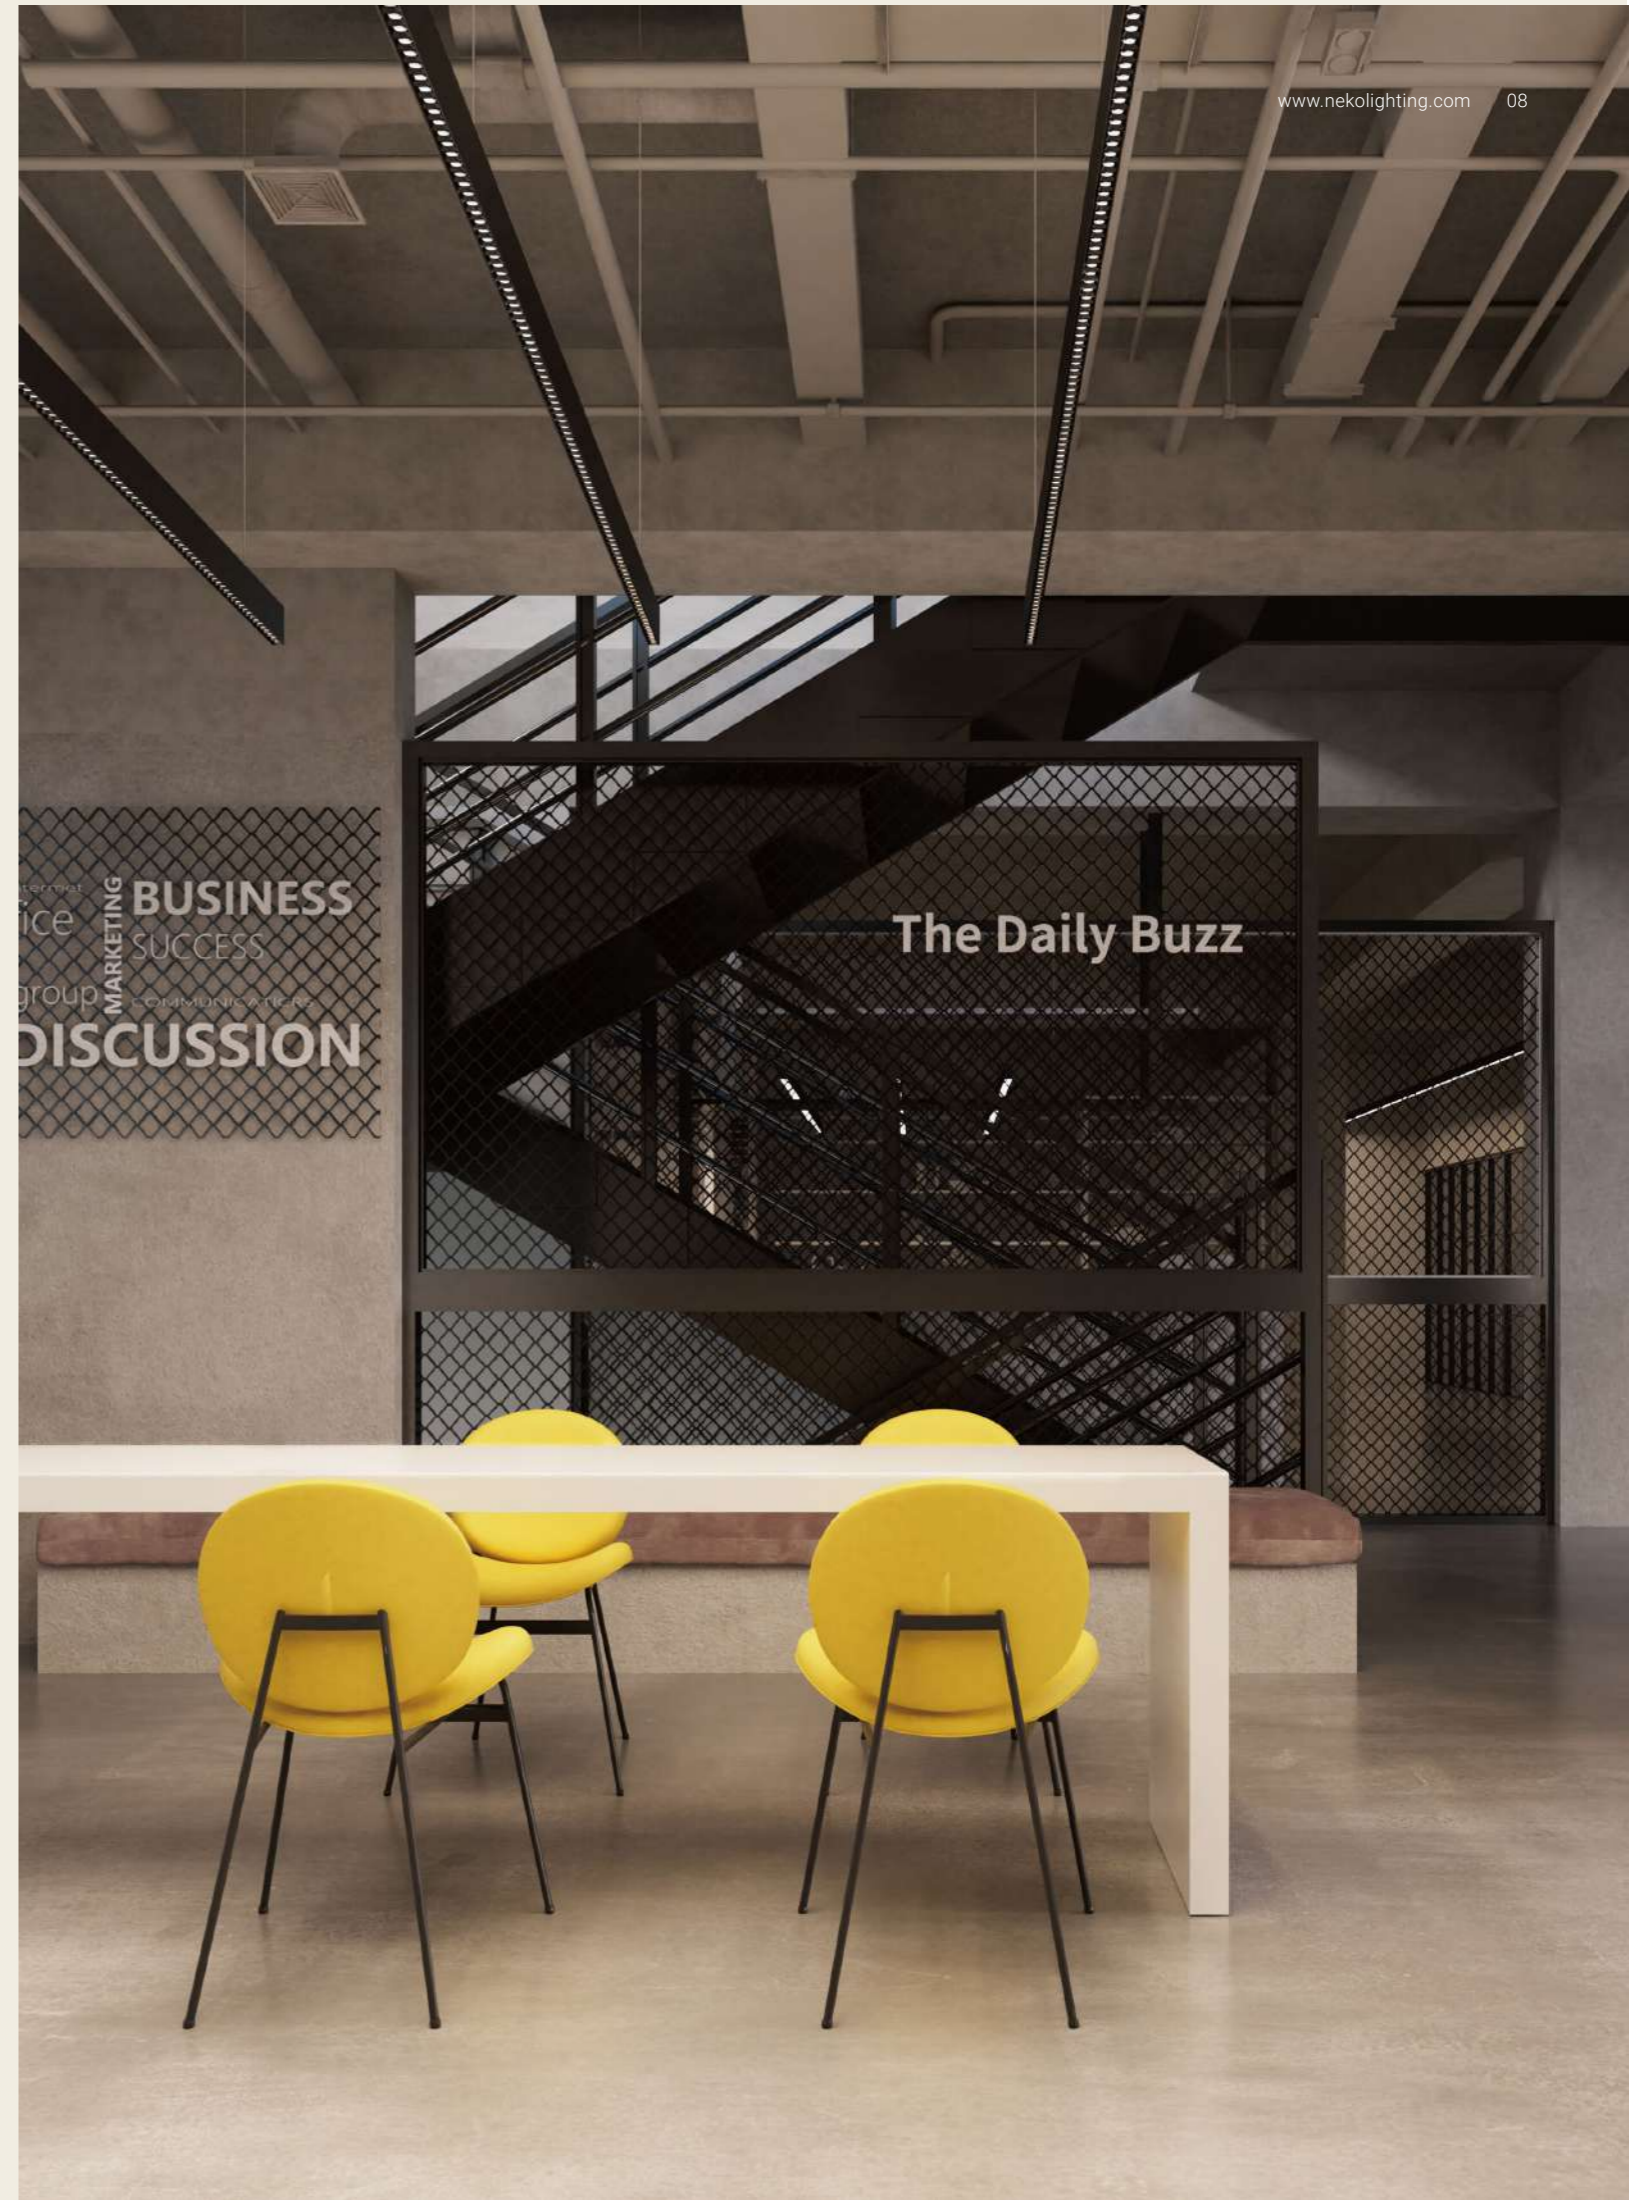

Focused light for collaborative minds.
In collaboration zones, **SPACE 40 AL** delivers
precise accent lighting, while **SPACE 40 CL**
elevates the environment with exceptional visual comfort.

SPACE 40

Linear System

Break the monotony with flexible combinations of accent and general lighting, shaping each workspace to its own rhythm.

SPACE 40

Linear System

SPACE 40 EVO

Linear System

Go beyond the standard.

Design lighting as unique as your space.

We offer custom production based on your drawings — because every detail matters.

Available in acoustic and non-acoustic versions, our luminaires provide flexible options to meet both visual and acoustic comfort requirements in modern workspaces.

SPACE 40

Linear System

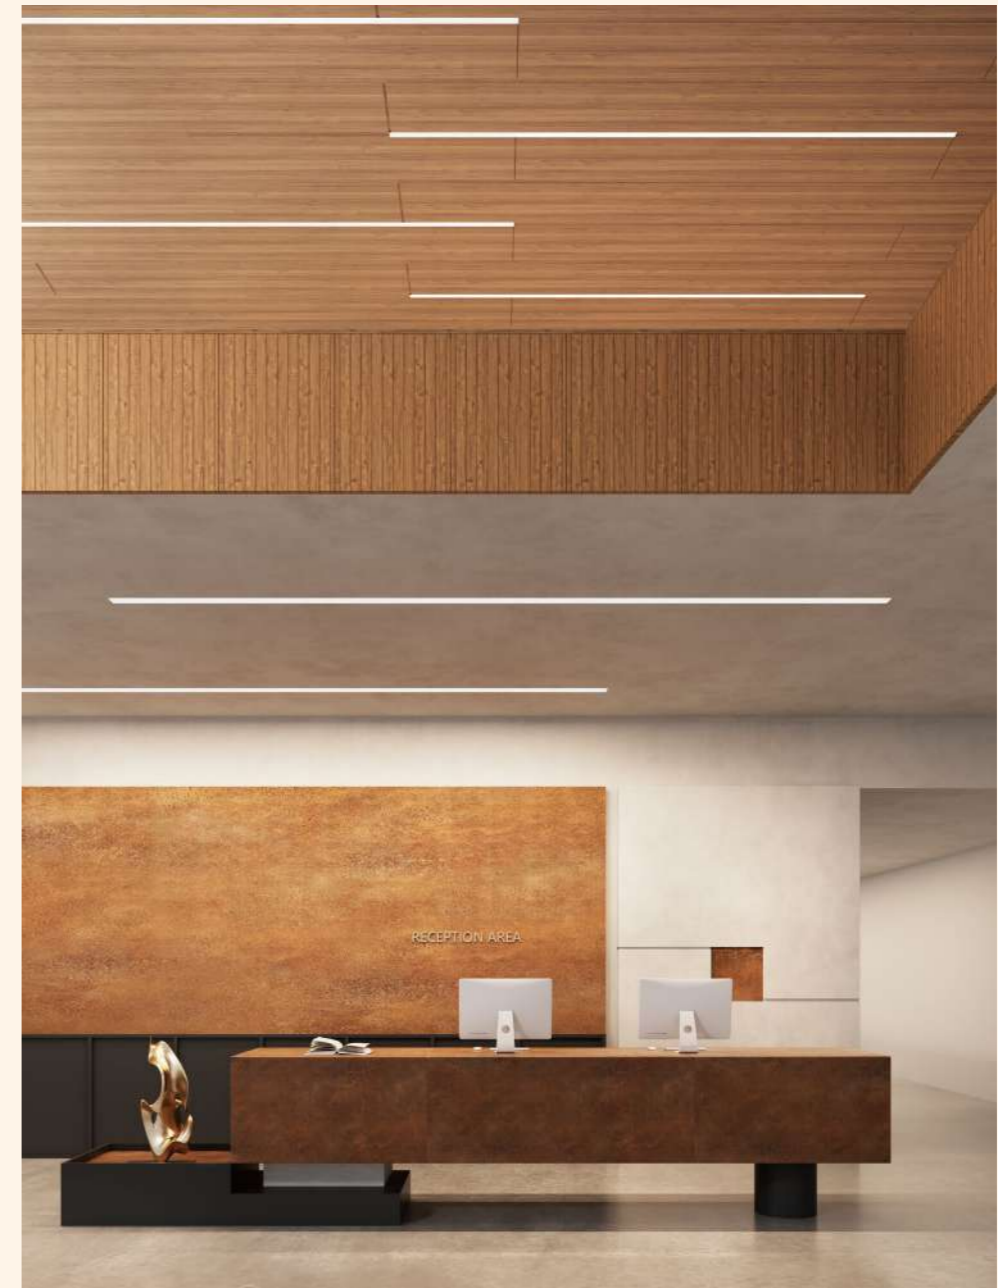

Seamless lines. Seamless welcome.
Recessed linear light that defines professional spaces.

Balanced light for every space.
Microprismatic or opal covers extend seamlessly **up to 30 meters**,
gliding along long office hallways with uninterrupted style and illumination.

SPACE 40 EVO

Linear System

Not only surfaced. Not only recessed.
Linear lighting that bends. Ideas that extend.

Linear lighting that flows with architecture,
delivering visual comfort and a welcoming atmosphere for every gathering.

SPACE 40 EVO

Linear System

Power: 22 W/m

Luminous Flux: up to 2750 lm/m for high efficiency version

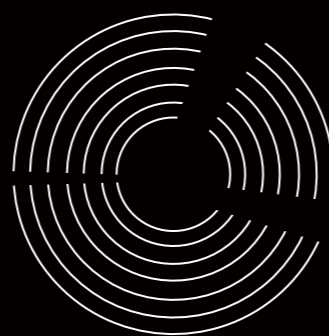

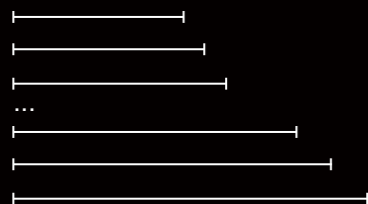

Independent and Continuous Lighting Options

Available Lengths from 560mm to 2800mm (Extension Modules in 70mm Increments)

L-Corner, T-Corner, Y-Corner, X-Corner, Arc-Corner, and Multiple Curves Available

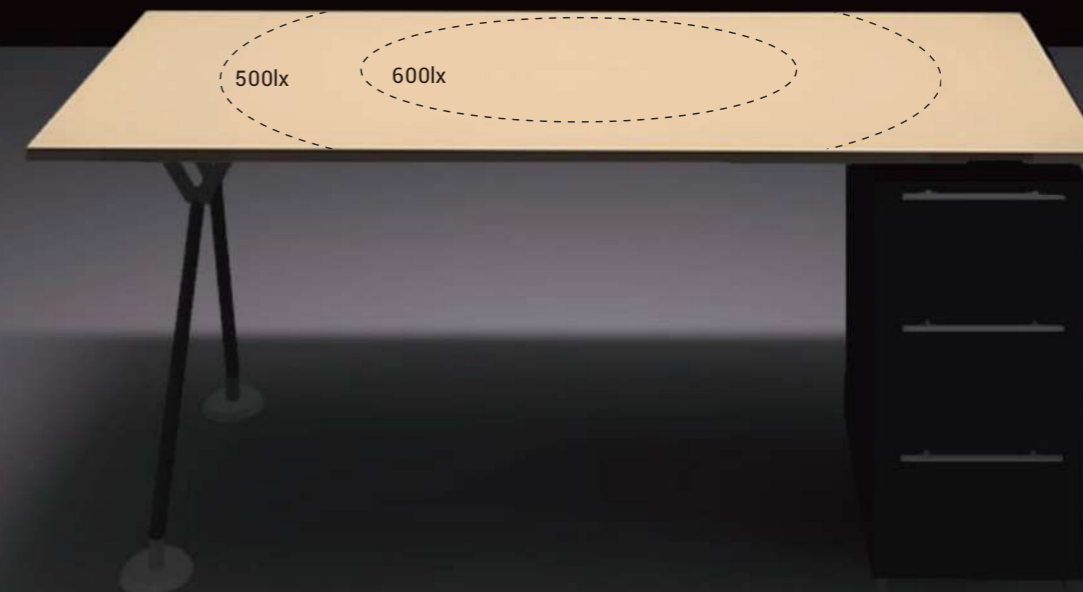

SPACE 60 / 60 EVO

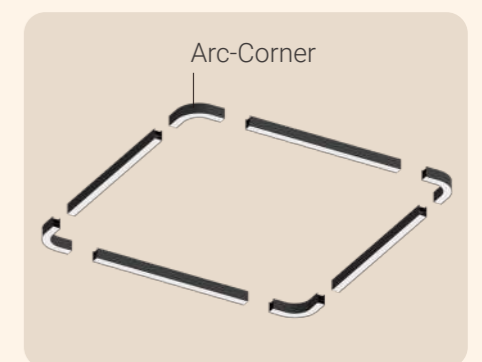

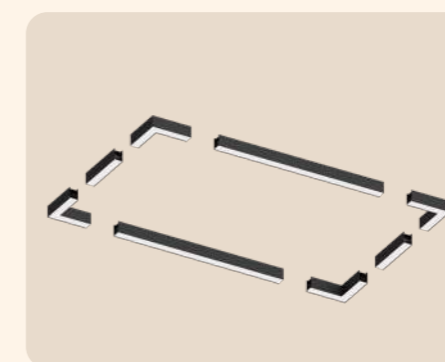

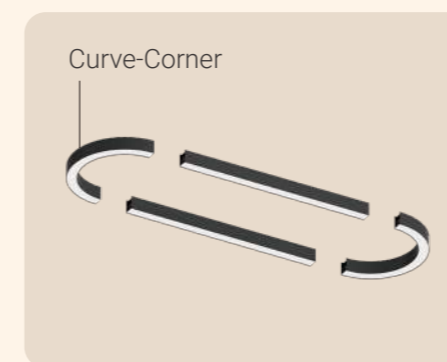

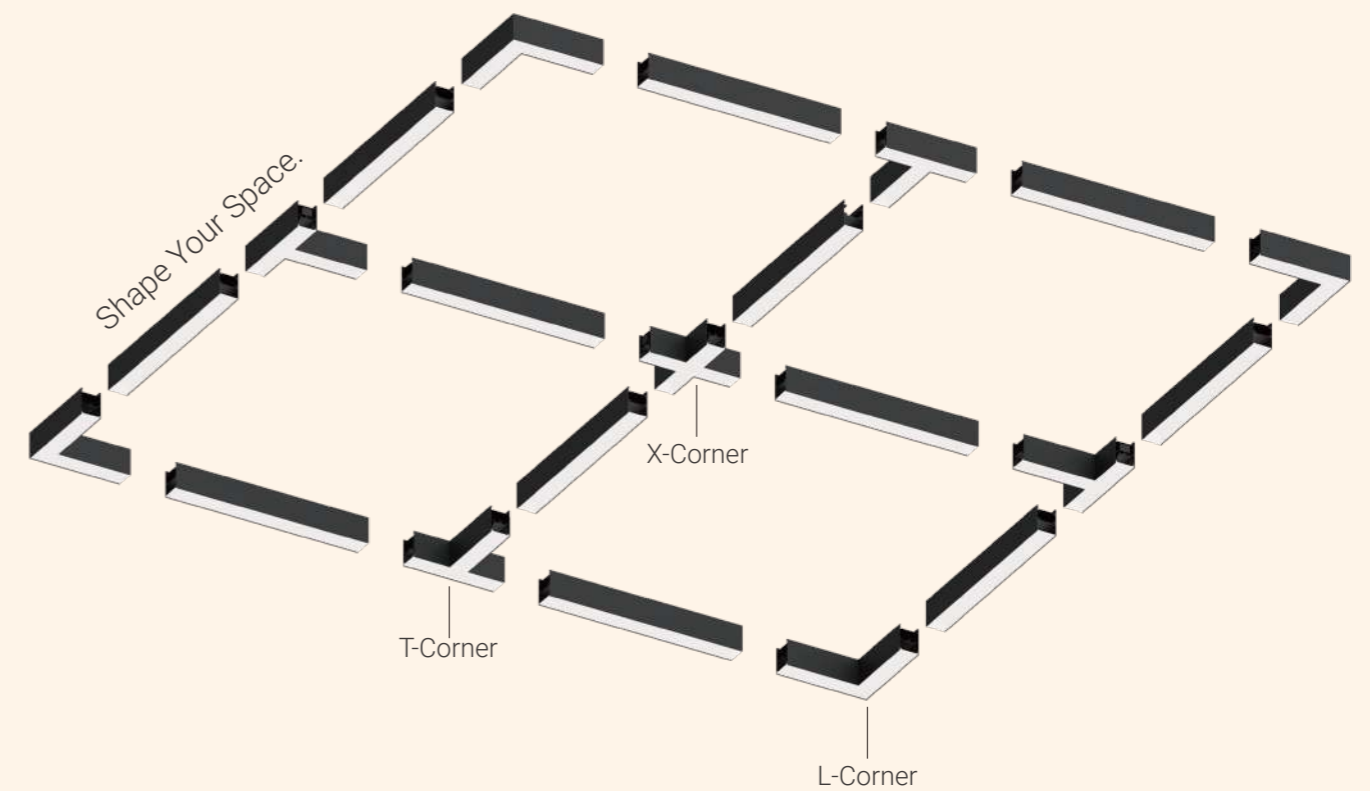

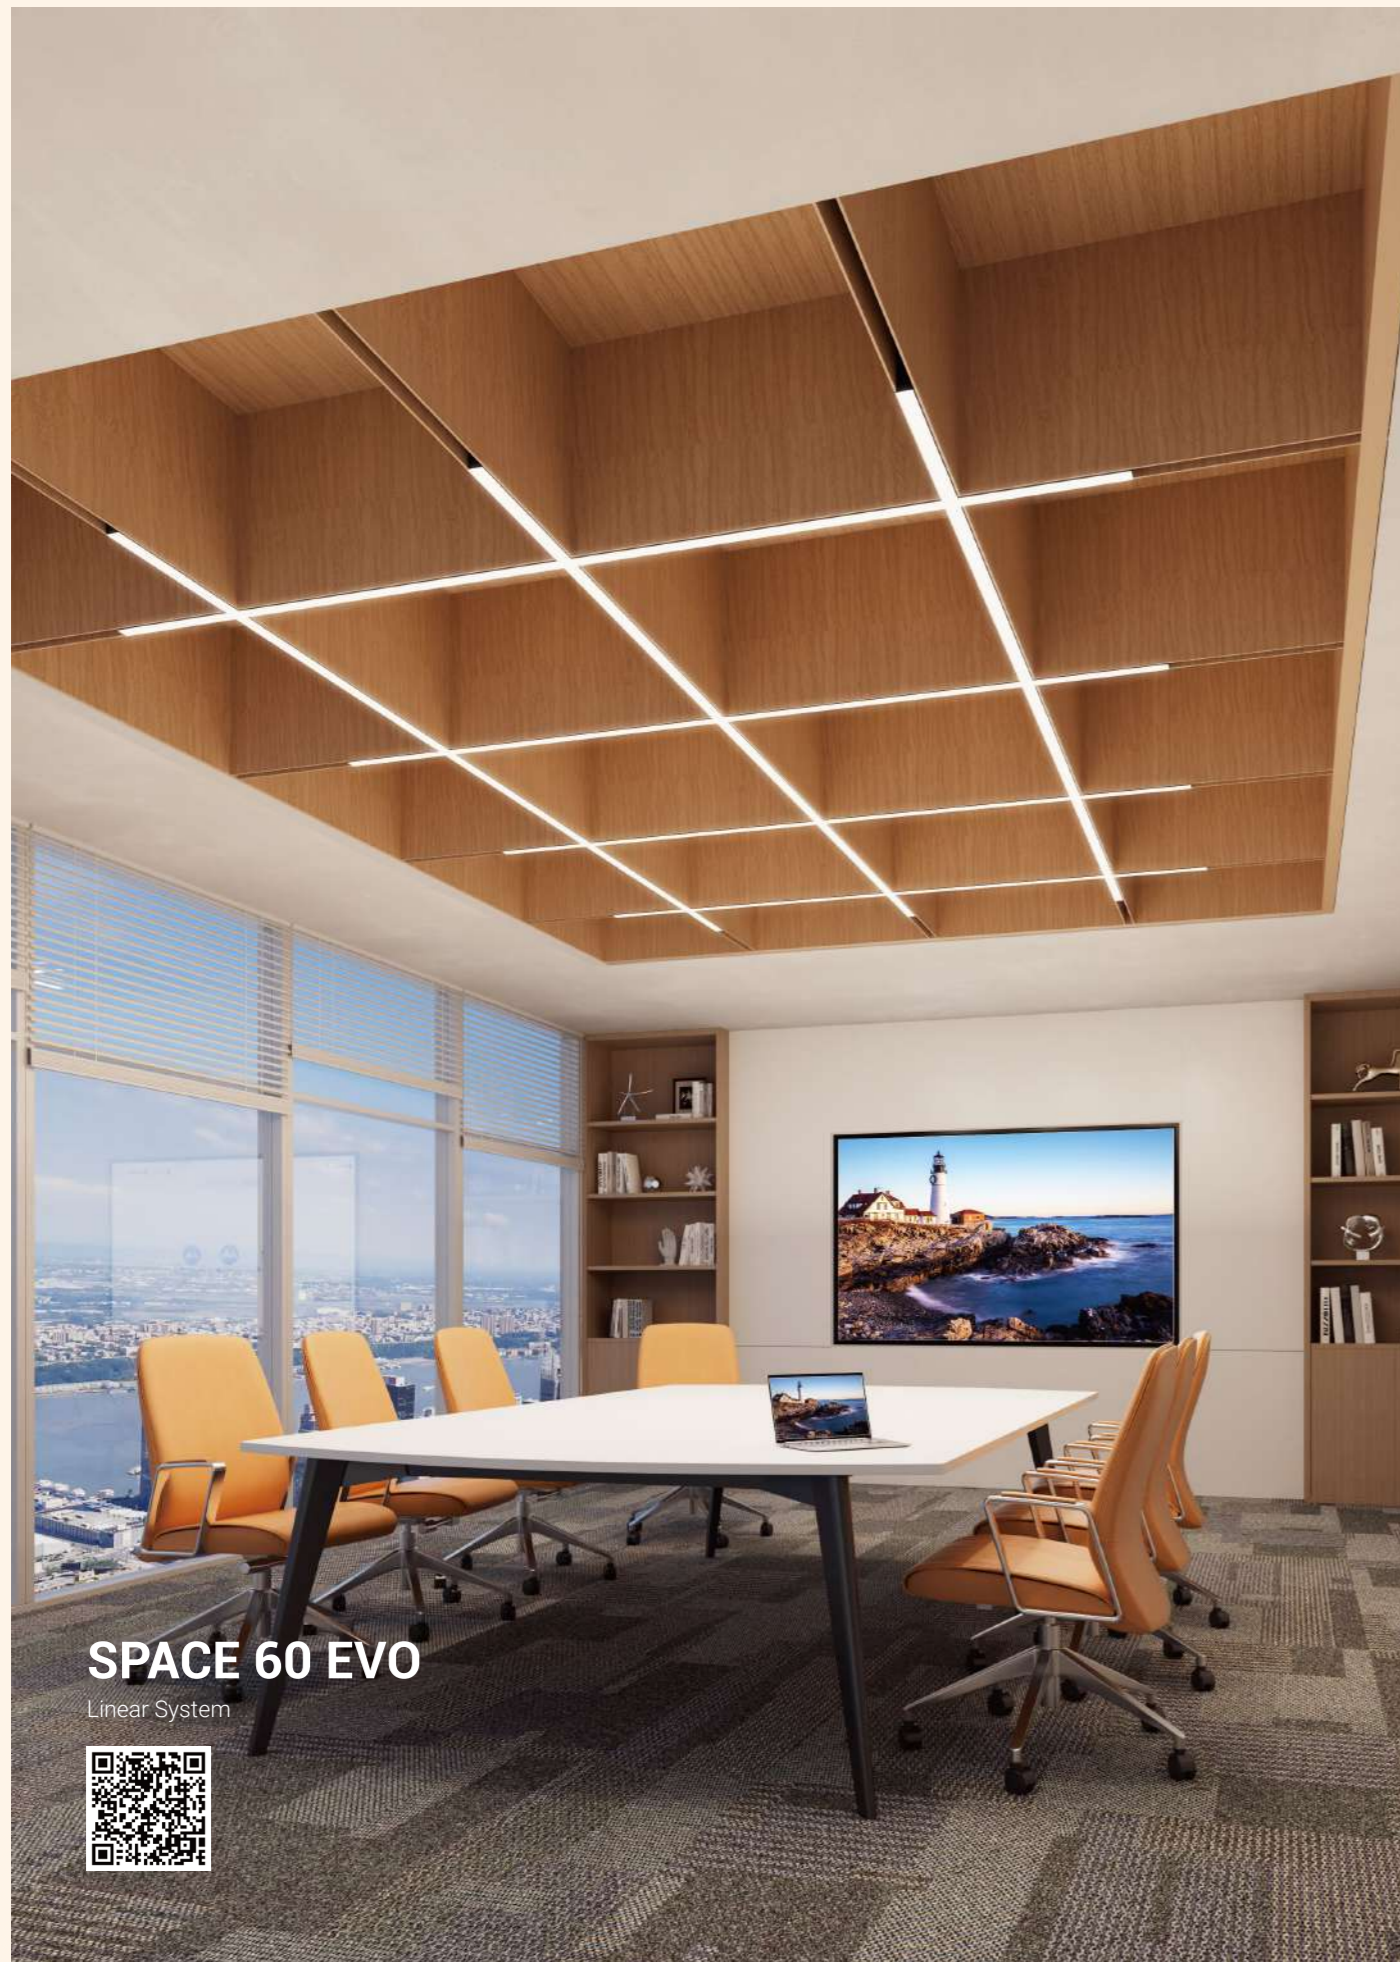

Linear System

UGR <19 Designed for workspace wellbeing

Product: SPACE 60 P-CL1500U-47W-840-80° ↓ 105° ↑
 Worktop dimensions: (L x W x H) 1800 x 900 x 800 mm
 Ceiling height: 3000 mm
 Lamp height from worktop: 1300 mm
 Average illuminance: 535 lx
 Uniformity: 0.64 UGR: <19

Lines, arcs, and endless possibilities.

SPACE 60 EVO

Linear System

Modular linear lighting system goes beyond straight lines.
Ideal linear system for office lighting.

SPACE 60 EVO

Linear System

Standard: Ø600 / Ø900 / Ø1200 mm
Customized: Ø1500 / Ø1800 / Ø2000 mm and above

Offered in both acoustic and non-acoustic versions,
with a variety of acoustic panel options available.
Engineered for visual comfort with microprismatic optics and UGR<19.

SPACE 60 EVO

Linear System

The hexagonal shape adds architectural character, combining microprismatic optics with a full range of acoustic panels. Available in both acoustic and non-acoustic versions for different spatial needs, it shapes serene, eye-friendly, and focused work environments.

SPACE 60

Linear System

SPACE 60

Linear System

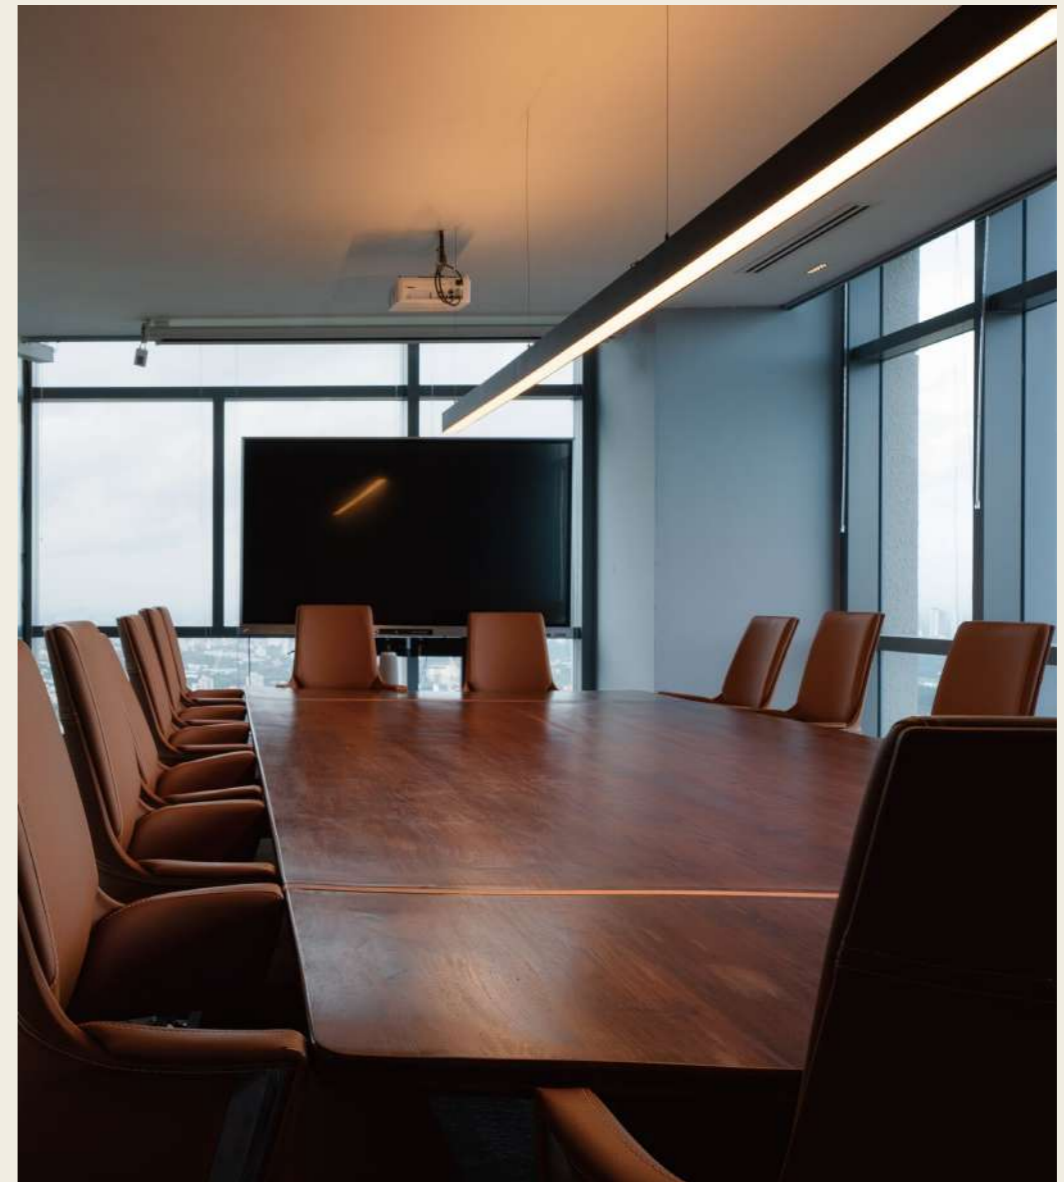

Whether in a meeting room or a private office, balanced uplight and downlight deliver visual comfort. Microprismatic optics and $UGR < 19$ provide glare-free light, supporting productivity and visual comfort throughout the day.

SPACE 60

Linear System

Light your office your way.
 UGR<19 with microprismatic optics for visual comfort.
 Opal Diffuser for high efficiency, designed to enhance every meeting.

48V Modular Track System

MODULE 26

48V Modular Track System

Project: Oaktech office, UAE

Light flows seamlessly: general, task, decorative.

From ambient to task to accent – all in one track system.

MODULINE 26

48V Modular Track System

Spotlights, accent lights, and pendants all powered by the 48V low-voltage track system work seamlessly together, combining functional, focal, and decorative lighting in the reception.

MODULE 26

48V Modular Track System

Glare-free accent and general light lead visitors comfortably through the reception and into the office.

MODULE 26

48V Modular Track System

"We aimed to create designs that are both simple and versatile—something that can easily adapt to any space while still making a statement. It's been exciting to see our creations used in so many projects, transforming environments in ways we've always hoped for."

— Oliver Königs, Chief Designer

"At NEKO, we believe that great design knows no borders. Our products are designed to bring quality and innovation to any space, and it's rewarding to see them being embraced in projects worldwide. I'm proud of what we've achieved and excited about where these designs will go next."

— Bruno Touzery, Managing Director, NEKO France
