

La baliza FAR está fabricada en extrusión e inyección de aluminio, y está lacada en poliéster color gris texturizado y con difusor de policarbonato transparente.

Todos los modelos, incorporan unas rejillas anti deslumbramiento que garantizan el confort visual y evitan la emisión de flujo hacia el hemisferio superior.

The FAR bollard is manufactured in extruded, injected aluminium, lacquered in textured grey polyester with a transparent polycarbonate diffuser. All the models include anti-glare grilles that guarantee visual comfort and prevent light flow emission to the upper hemisphere.
