

ALEANE

ALEANE

Specifications:

- Very slim and vandal-resistant architectural light fitting
- 2 mm-thick steel body protected against corrosion and polyester powder coating, lever-resistant
- 4 mm clear polycarbonate diffuser (fluorescence) or satin opal (LED)
- Symmetrical or asymmetrical reflector
- Anti-vibration buffers under T5 and T8 lamps
- Protected cable entries
- Tamperproof stainless steel screws
- Fixation outside of sealed body

Options:
(please contact us)

Class II
Duroflam® diffuser
Separate circuit
1W or 3W LED night light
Cable trunking
Through-wiring
Dummy bodies and connection parts
45° support brackets

○ RAL9003
Standard colour: white

LED module:

- 6 x 1.5 W LED module
- Mounted on aluminium heat dissipation plate
- Average colour temperature: 3800 K / IRC (Ra) > 80
- LED power supply: constant voltage 24 V DC
- Total module power: 9.50 W
- Average service life 50000 hours at 25 °C ambient temperature

Easy-Sensor® detection:

- 5.8 GHz microwave detector
- 360° detection range
- Sensitivity adjustable from 20 to 100%
- Daylight sensor: adjustable from 5 to 2000 Lux.
- Adjustable timer: 10 seconds to 20 minutes
- Memorisation of settings in case of power failure.
- Maximum load: 500 W (fluorescent and LED), 800 W (incandescent)
- Standby power: 0.9 W ± 10%
- Operating temperature range: - 20 °C to + 70 °C

⚠ Motion sensor operation may reduce the life time of fluorescent lamps.
Recommended operating time: 20 min (12 min minimum).

Corridor function:

By default, the Corridor function provides standby lighting by reducing the luminous flux to 10% of its rated value.
On request, we can also preset the fittings to operate with a switch-off warning signal, i.e. to reduce then stop the luminous flux.

Light fittings without built-in motion sensor:

The Corridor function can be activated by another master luminaire, a remote detector, a timer switch or a daylight sensor.

Fluorescence gradable (EEI = A1):

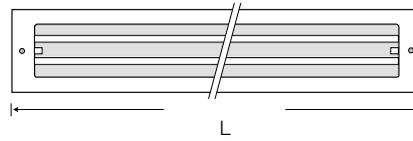

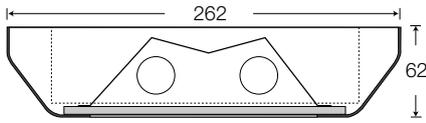

Three types of controls are included in the same dimmable HF ballast: DALI, DSI, or SWITCH-DIM (momentary push-button switch operated).

HF ballast (EEI = A2):

- Warm cathode HF ballast
- Non dimmable
- Power factor cos phi > 0.95
